Default Session

Criteria	Description	Score
Clarity	The story is clear but lacks specific details on regulatory requirements.	18
Completeness	Preconditions and acceptance criteria are not clearly mentioned.	12
Business Value Alignment	Strong healthcare relevance and compliance focus.	19
Testability	Can be tested through patient record updates and compliance checks.	16
Technical Feasibility	Technically feasible with EHR integration and regulatory updates.	17

Overall Score: 82 / 100

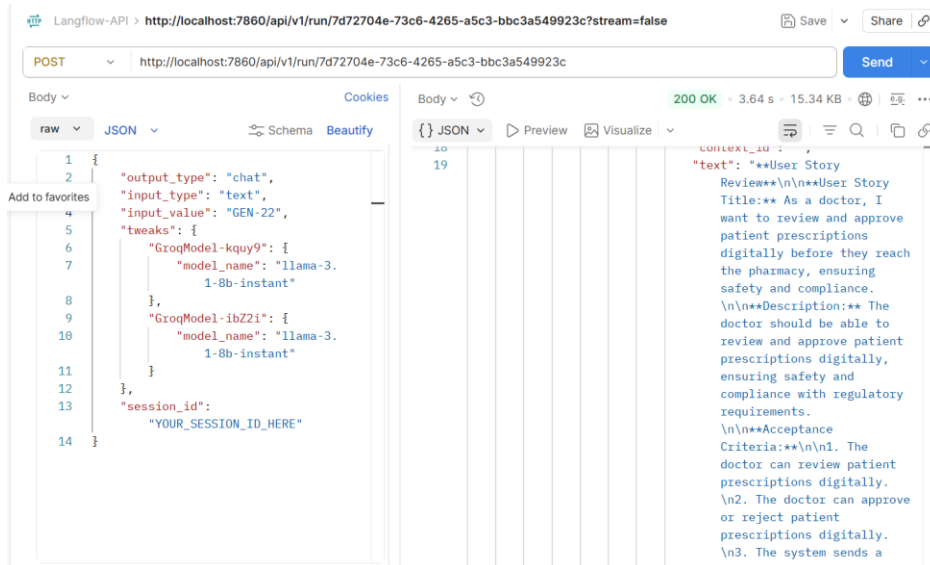

Improvement Areas:

1. Add explicit acceptance criteria for regulatory compliance checks: Specify the exact regulatory requirements to be checked and the expected outcomes.
2. Include system actor details for patient record updates: Define the roles and responsibilities of
